

Hong Kong - Exhibition

# Antoine D'Agata: Contamination Charbon

29 Mar 2018 – 25 May 2018

The show celebrates thirty years of the radical and unique work of major artist **Antoine D'Agata**, exhibiting thirty colour and black & white prints and a video installation. From one continent to another, D'Agata has never ceased to pursue his arduous and radical quest: a plunge into prostitution, urban violence and drugs where one is used to see only nothingness, and where he chases the dignity of the losers, life force of the underdogs, beauty of a gesture and human solidarity.
